Hi Lisa. Attached are the required community involvement requirements. Call me if you want to discuss. I'll be back in all day on Thursday.

Hello, Jennifer. I wanted to touch base with you to ensure I know what additional elements I need to include in the OU2 Removal Order Communications Plan. Thanks!

No worries, it is definitely a time-critical removal action so it must be the one that goes over 120 days. Does that help?

Thanks,

Dania Zinner

I don't think it would be in an AOC/SOW, but it is typically in an action memo. Until we figure it out, attached are the required community activities for all three kinds of removal actions. Of course, we obviously always do more what is required, so I think what you already have in the plan is excellent. We'll just need to add these requirements.

I know it's a Time Critical for sure since we're expecting to start construction in February, and I would expect the removal to last more than 120 days; there's a lot of material to get out and then build the liner. Does that help? I have a draft AOC/SOW...would it be in there?

Hi Lisa. I remember this plan from last year. Oh, how time flies! Anyway, there are a few additional *required* community involvement requirements. It depends on whether the action memo for this action describes it as a Time Critical Removal (*with a planning period of <6mos.*); a Time Critical Removal (*with a planning period of <6 months, but expected to last longer than 120 days*); or a Non-Time Critical Removal (*with a planning period of at least six months*). Do you know which it is?

Sure, Dania! I have attached the Communications Plan I drafted last September; I updated it today to include your name and contact info. At the time, this plan was approved by the North Denver Cornerstone Collaborative (NDCC), Paula, and Jennifer; however, since it was written some time ago, it may be out of date in other areas. I am copying Zach, Celia, and Erika Martinez (NDCC communications/community relations) here as well so they can revisit and make any changes that may be required.

Thank you, Dania. It was nice to meet you this morning, and I look forward to working together on this exciting project!

Lisa

Hi Lisa,

If you could connect with Jennifer to make sure we're meeting our community involvement requirements, I would much appreciate it. Thanks!
